

The Story of JJ the Ace Hardware Cat

JJ the Cat was lost and all alone. Every night he had to hunt for food to eat and look for a safe place to sleep. He was scared and very hungry.

JJ would get very cold because he had no shelter and would get wet when it rained.

A kind lady found JJ and took him home with her. She took him to the veterinarian and JJ got all the care and medicine he needed. She spent many days trying to find his owners, but no one claimed him.

The kind women brought him to ACE hardware hoping to find him a good home with a customer. She gave him cat food, water, and toys.

JJ was given a nice soft bed in front of a warm and cozy wood stove.

JJ enjoyed greeting the customers and the attention from the store employees. He decided that store was the perfect home for him - a place where he was safe and loved.

JJ helps to raise money to get a Regional animal shelter built - he sells cat toys and holds bake sales. He knows that not all lost and abandoned pets are as lucky as him. He would like them all to have a safe place to eat and sleep until a loving family can adopt them.

Thanks to the Grangeville, Idaho Ace Hardware Store and employees for their continued assistance in creating a Regional Animal Shelter and supporting the Animal Rescue Foundation

The Animal Rescue Foundation is dedicated to creating a regional animal shelter headquartered in Grangeville, ID. The ARF Regional Animal Shelter will provide for the basic needs of domesticated animals (primarily cats and dogs) until they are reclaimed by their owner, placed in a new home or placed with another organization for adoption.

Visit www.arfshelter.org to learn more about our project and make a donation to help build the animal shelter.
